**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-17, 35-37, 39-51 and 53-54, drawn to repositionable surface covering adhesive sheets and an accompanying method of manufacture, classified in class 428, subclass 343.
  - II. Claims 18-34, 38 and 52, drawn to repositionable surface covering non-stringing adhesive sheets and an accompanying method of manufacture, classified in class 428, subclass 343.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the omission of details of the claimed non-stringing adhesive in Group I is evidence that the patentability of the combination does not rely on the details of the specific subcombination of Group II, and the subcombination of non-stringing adhesive has separate utility such as a heat activated hot-melt adhesive.

Art Unit: 1771

3. Because these inventions are distinct for the reasons given above and the search required for Invention I is not required for Invention II, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Steven Schmid on 7/10/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor S Chang whose telephone number is 703-605-4296. The examiner can normally be reached on 8:30 - 5:00.
